## FEATURES

What happens when an ultra-grip, cut resistant palm meets Performance-Flex and touchscreen capability for better functionality? One heck of a hard-working glove that's built to last.

These heavy-duty Extreme Ultra Grip Gloves keep your hands comfortable with 200g fiberfill plus foam insulation with fleece lining all encased in a polyester/spandex outershell to keep you warm down to -30°F. They also have Performance-Flex knuckles to improve movement and leather fingertips and thumb crotches for maximum durability. Comfortably use touch screens on all your work communication devices with the screen-compatible forefingers on these thermal work gloves. Now you can stay fully insulated even when using your phone!

This insulated work glove is reinforced with leather to add extra durability and heat trapping power so you can tackle the toughest jobs and stay warm. Get your hands on the best set of gloves to take your work - and comfort - to the extreme.
