

# Corrosive Substance Storage Cabinet

**ACP810030**

It has acquired CE Certification and OSHA 29 CER 1910.106 of American Occupational Safety and Health Administration, NFPA CODE30 of American National Fire Protection Association and Hazardous Chemicals Control Ordinance of State Bureau of Safe Production Supervision and Administration

## Corrosive Substance Storage Cabinet

1. Constructed of 8mm polypropylene(PP) panels, offering superior protection against harsh acid, alkali and corrosion.
2. Adjustable and reversible shelves meet diverse choices of users.
3. Formed with bent plates to make it stable and prevent from being out of shape.
4. Poly hinges and embedded door handles means there are no metal parts to corrode.
5. Divided into two parts to store different chemicals, making good use of storage space(48 Gal only).
6. Provided with independent vents which can be connected with exhaust systems.
7. Fully welded, liquid-tight 150mm sump contains accidental spills and has certification with EPA regulations.
8. Door hasp accepts padlock to achieve double locks for security against unauthorized use.
9. Equipped with adjustable steel leg levelers on all four corners to keep the cabinet level.
