

Steel Dolly for Overpack Salvage Drum

SYD001

Acquired CE Certification, comply with the regulations of EPA 40 CFR 264.175 of EPA and SPCC as well as U.S. NPDES.

Steel Dolly for Overpack Salvage Drum

The 95Gal overpack salvage drum is slightly heavy in emergency treatment of chemical spill. In order to improve the mobility, the flexible sliding rails can be used. Two universal casters can be fixed at any time to prevent bounce in operation.

Note: It is recommended to apply the rails only to the drum with spill kits.
